

HYDROCAL POLYCHEM

LIQUID POLYMER FEED SYSTEM

The HydroCal Polychem System is the ultimate in simplicity and reliability. The Polychem unit uses low power, takes up minimal space, requires little maintenance, and operates unattended. Various size units cover output ranges from 0.1 to 10 gph neat polymer.

Benefits

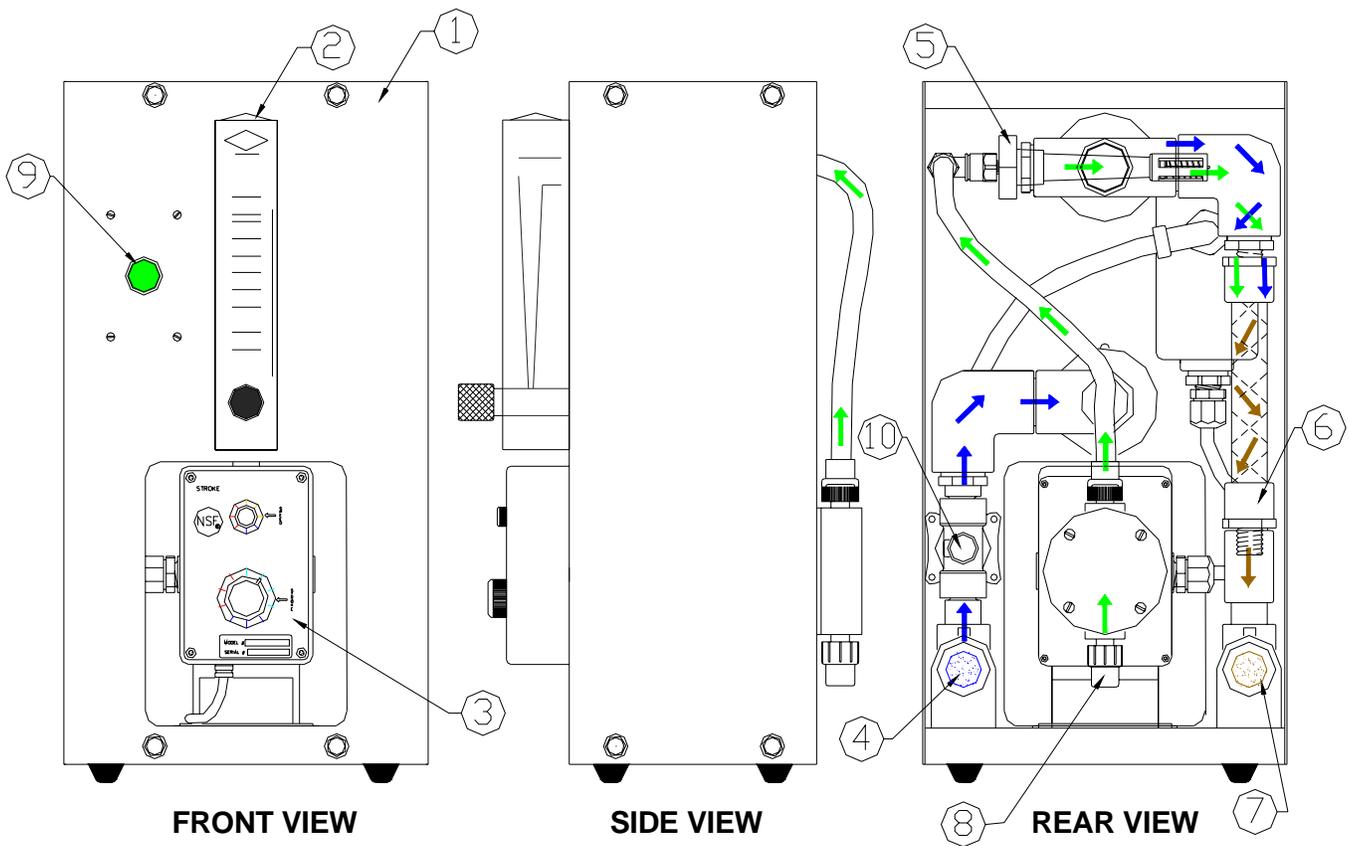

- Optimizes Polymer Performance
- Economical
- Simple and Reliable
- Low Maintenance
- Easy to Install
- Portable and Lightweight
- Eliminates Mess; Enhances Safety
- Improves Coagulation/Flocculation
- No Programming Required

Specifications

- Power: 120 volt / 60 hz / 1 ph / 2.5 amp
- Dimensions: 10-3/4" x 12" x 20-5/8"
- Pump: LMI electronic metering
- Material: 304 SS frame / pvc
- Connections: Water inlet: 3/4" FPT
Discharge Outlet: 3/4" FPT
